On the border of the English counties of Devon and Somerset, John Ridd’s father is a yeoman farmer murdered in cold blood by a member of the notorious Doone family. John is besotted with Lorna, the granddaughter of the head of the Doone clan, who is to be forced to marry the evil Carver Doone. John helps Lorna escape, but circumstances lead to the discovery that she is not a Doone after all, and the newfound heiress moves. But the Monmouth Rebellion finds John wrongly accused of treason and he has to clear his name in London, where he finds Lorna once more and where their love is rekindled. He is granted a royal pardon, and later Lorna is allowed to join him at his Exmoor farm. Just as they are married in Oare church, Carver Doone shoots Lorna at the altar and John, believing her dead, pursues and kills him. But is his love really dead? Although Lorna Doone is perceived as a romance, it is set in the 1600s, when writings about sexual life at the court and personal
diaries such as those of Pepys could be incredibly graphic, even by today’s standards. They were especially scandalous in the prudish Victorian times of the author. Had Blackmore written it in the seventeenth century, or in modern times, he probably would have done so similarly to this updated version and built on the existing innuendo. Sensuality Level: Spicy

This is the third and final volume of Douglas Monroe's Merlyn series. The Dark Age of Druidism of Merlyn was entirely based upon the teachings of the Pheryllt, a British Megalithic Priesthood whose practices and philosophies set the essence of what later Druidism would become - set, quite literally, in stone. Drawing once again upon the 16th Century Book of Pheryllt in addition to countless other volumes from Plato to Einstein, the author clearly establishes that the answers to nature's deepest questions lie well within our capacity to grasp - providing we understand how to look at the completed picture. Does the mind possess supernormal abilities? Does individuality survive bodily death? Is rebirth the evolutionary design of a Creator? As a young military commander in training, Arthur now faces his deepest trials as he challenges Merlyn with these three ultimate questions. Alongside him, begin your own quest to search out - and find! - answers to these and many other age-old mysteries.

The most famous long-distance hiking trail in North America, the 2,181-mile Appalachian Trail—the longest hiking-only footpath in the world—runs along the Appalachian mountain range from Georgia to Maine. Every year about 2,000 individuals attempt to “thru-hike” the entire trail, a feat equivalent to hiking Mount Everest sixteen times. In Walking on the Wild Side, sociologist Kristi M. Fondren traces the stories of forty-six men and women who, for their own personal reasons, set out to conquer America’s most well known, and arguably most social, long-distance hiking trail. In this fascinating in-depth study, Fondren shows how, once out on the trail, this unique subculture of hikers lives mostly in isolation, with their own way of acting, talking, and thinking; their own vocabulary; their own activities and interests; and their own conception of what is significant in life. They tend to be self-disciplined, have an unwavering trust in complete strangers, embrace a life of poverty, and reject modern-day institutions. The volume illuminates the intense social intimacy and bonding that forms among long-distance hikers as they collectively construct a long-distance hiker identity. Fondren describes how long-distance hikers develop a trail persona, underscoring how important a sense of place can be to our identity, and to our sense of who we are. Indeed, the author adds a new dimension to our understanding of the...
nature of identity in general. Anyone who has hiked—or has ever dreamed of hiking—the Appalachian Trail will find this volume fascinating. Walking on the Wild Side captures a community for whom the trail is a sacred place, a place to which they have become attached, socially, emotionally, and spiritually. Captain Pip of Townsville and a master of magic, Deor Godulfson, lead a dangerous quest through mysterious realms to rescue Prince John. Something Has Gone Terribly Wrong in Our World

Two thousand years after the cross, evil continues to brutalize and pillage in every nation and no one appears able to do very much about it. Why has the church made so little progress? While Satan lost his authority to rule on the earth, he did not lose his power. Failure to recognize this crucial difference has caused us to miss the point as to what the war over the planet is about and therefore, what we must do to win it.

Lucifer's War offers a detailed, historical examination of Satan, the demon gods who are aligned with him, and their ancient struggle with God over humanity. While the church is the only agency on earth authorized by Jesus to deal with evil at its root cause, believers must acknowledge what has not worked and pursue a different strategy that will. This book will change the way you pray, equip you to understand the times we are living in, and prepare you for what may happen next and what you can do about it.

This work is called a "romance," because the incidents, characters, time, and scenery, are alike romantic. And in shaping this old tale, the Writer neither dares, nor desires, to claim for it the dignity or cumber it with the difficulty of an historic novel. And yet he thinks that the outlines are filled in more carefully, and the situations (however simple) more warmly coloured and quickened, than a reader would expect to find in what is called a "legend." And he knows that any son of Exmoor, chancing on this volume, cannot fail to bring to mind the nurse-tales of his childhood—the savage deeds of the outlaw Doones in the depth of Bagworthy Forest, the beauty of the hapless maid brought up in the midst of them, the plain John Ridd's Herculean power, and (memory's too congenial food) the exploits of Tom Faggus. Aristotle (384—322 B.C.) was a Greek philosopher and scientist. His writings cover many subjects—including physics, biology, zoology, metaphysics, logic, ethics, aesthetics, poetry, theater, music, rhetoric, linguistics, politics and government—and constitute the first comprehensive system of Western philosophy. According to the Encyclopædia Britannica, “Aristotle was the first genuine scientist in history . . . [and] every scientist is in his debt.” Plato (428/427 or 424/423–348/347 B.C.E.) was a philosopher, as well as mathematician, in Classical Greece. He is considered an essential figure in the development of
philosophy, especially the Western tradition, and he founded the Academy in Athens, the first institution of higher learning in the Western world. Along with his teacher Socrates and his most famous student, Aristotle, Plato laid the foundations of Western philosophy and science. Alfred North Whitehead once noted: “the safest general characterization of the European philosophical tradition is that it consists of a series of footnotes to Plato.” —BOOKS BY ARISTOTLE— LOGIC INSTRUMENT, TOOL, ORGAN ORGANON [*] CATEGORIES ON INTERPRETATION PRIOR ANALYTICS POSTERIOR ANALYTICS TOPICS SOPHISTICAL REFUTATIONS PHYSICS PHYSICS ON THE HEAVENS ON GENERATION AND CORRUPTION METEOROLOGY ON THE UNIVERSE ON THE SOUL LITTLE PHYSICAL TREATISES PARVA NATURALIA [*] SENSE AND SENSIBILIA ON MEMORY ON SLEEP ON DREAMS ON DIVINATION IN SLEEP ON LENGTH AND SHORTNESS OF LIFE ON YOUTH, OLD AGE, LIFE AND DEATH, AND RESPIRATION ON BREATH HISTORY OF ANIMALS PARTS OF ANIMALS MOVEMENT OF ANIMALS PROGRESSION OF ANIMALS GENERATION OF ANIMALS ON COLORS ON THINGS HEARD PHYSIOGNOMONICS ON PLANTS ON MARVELLOUS THINGS HEARD MECHANICS ON INDIVISIBLE LINES THE SITUATIONS AND NAMES OF WINDS ON MELISSUS, XENOPHANES, AND GORGIAS PROBLEMS METAPHYSICS ETHICS AND POLITICS NICOMACHEAN ETHICS GREAT ETHICS EUDEMIAN ETHICS ON VIRTUES AND VICES POLITICS ECONOMICS CONSTITUTION OF THE ATHENIANS RHETORIC AND POETICS Rhetoric to Alexander Poetics Select Fragments BOOKS ABOUT ARISTOTLE ARISTOTLE ARISTOTLE AND ANCIENT EDUCATIONAL IDEALS ARTICLES ON ARISTOTLE BOOKS BY PLATO CHARMIDES LYSIS LACHES PROTAGORAS EUTHYDEMUS CRATYLUS PHAEDRUS ION SYMPOSIUM MENO EUTHYPHRO APOLOGY CRITO PHAEDO GORGIAS LESSER HIPPIAS ALCIBIADES I MENEXENUS ALCIBIADES II ERYXIAS THE REPUBLIC TIMAEUS CRITIAS PARMENIDES THEAETETUS SOPHIST STATESMAN PHILEBUS LAWS SPURIOUS TEXTS HIPPARCHUS THE RIVAL LOVERS THEAGES MINOS EPINOMIS SISYPHUS AXIOCHUS DEMODOCUS HALCYON ON JUSTICE ON VIRTUE DEFINITIONS EPIGRAMS THE EPISTLES BOOKS ABOUT PLATO INTRODUCTION TO THE PHILOSOPHY AND WRITINGS OF PLATO PLATO AND PLATONISM THE INFLUENCE OF PLATO ON SAINT BASIL ARTICLES ON PLATO CATHOLIC WAY PUBLISHINGThis book is not just about thinking or acting in transdisciplinary ways, but about being transdisciplinary. To achieve this requires a deconstruction of our current way of acting within the definition of being that others impose upon us. Transdisciplinarity is a
phenomenological perspective of reality and its manifestation in the world in which we exist. The volume develops a widely based transdisciplinary understanding of the issues faced by higher education institutions and those who work within and with these institutions to educate professionals. It incorporates international contributions from organisational theory, anthropologists, historians, psychologists, social sciences, philosophers and practitioners to create a volume that makes an important and distinct contribution to the literature on higher education and professional practice. “Transdisciplinarity provides one of our greatest challenges in higher education, both to the way it is organized and to the nature of the curriculum. This book is an important contribution to the debate about its implications.” “Higher education is being challenged by the nature of knowledge and how it is organized—the world is transdisciplinary but our institutions are constrained by the disciplines. This book contributes to the important debates about the challenges transdisciplinarity provides to our institutions.” Professor David Boud Emeritus Professor, Faculty of Arts and Social Sciences, University of Technology, Sydney

As developing countries increasingly confront the issues of an aging population, this important book identifies the key period in the life cycle in which changes to the body, as well as concomitant psychological developments, result in the entering of a new phase of life, maturescence. The author defines the metapsychology of maturescence from a psychoanalytic standpoint, detaching it from the concepts of midlife and middle age. Supported by clinical examples, the book defines the stimuli which are the precursors to this phase, before examining the complete set of psychological challenges it entails. The author also highlights how maturescence has been illustrated in key literary figures in the 20th century and draws parallels with the mythical cycle of the hero. This fascinating and original book will be essential reading for psychoanalysts, psychotherapists and any professional working
with issues around aging. Lorna Doone: A Romance of Exmoor (1869) is a novel by Richard Doddridge Blackmore. Praised by some of Victorian England’s leading authors, including Robert Louis Stevenson, George Gissing, and Thomas Hardy, Lorna Doone was published anonymously and sold poorly in its first edition. Republished the following year in an inexpensive format, the book became a huge success for Blackmore, and remains his only novel in print. Raised in the hill country of Exmoor, John Ridd is forced to take over his family farm at a young age following his father’s murder at the hands of the Doone clan. Determined to succeed, he endeavors to do right by his mother and younger siblings, raising their crop by the banks of Badgworthy Water. Ready to put the past behind him, he unexpectedly falls for the beautiful Lorna, the granddaughter of Sir Ensor Doone. When Ensor dies, the Doone estate passes to her cousin Carver, who believes he is destined to marry Lorna. Forced to flee to John’s farm at Plover’s Barrows, Lorna—whose true identity endangers her life—hides from her cousin Carver at the home of a family which knows all too well the dangers of trusting a Doone. With a beautifully designed cover and professionally typeset manuscript, this edition of Richard Doddridge Blackmore’s Lorna Doone: A Romance of Exmoor is a classic work of English literature reimagined for modern readers. This is an illustrious historical romance set in the backdrop of the Monmouth Rebellion in the 17th century during the reign of Charles II. John Ridd and his family are threatened by the Doones, the family of outlaws. The young boy explores a new world and meets a beautiful girl with whom he falls in love. The twists and turns of the plot and striking landscapes of Badgworthy valley are pleasant. If anybody cares to read a simple tale told simply, I, John Ridd, of the parish of Oare, in the county of Somerset, yeoman and churchwarden, have seen and had a share in some doings of this neighborhood, which I will try to set down in order, God sparing my life and memory. And they who light upon this book should bear in mind not only that I write for the clearing of our parish from ill fame and calumny, but also a thing which will, I trow, appear too often in it, to wit—that I am nothing more than a plain unlettered man, not read in foreign languages, as a gentleman might be, nor gifted with long words (even in mine own tongue), save what I may have won from the Bible or Master William Shakespeare, whom, in the face of common opinion, I do value highly. In short, I am an ignoramus, but pretty well for a yeoman. My father being of good substance, at least as we reckon in Exmoor, and seized in his own right, from many generations, of one, and that the best and largest, of the three
farms into which our parish is divided (or rather the cultured part thereof), he John Ridd, the elder, churchwarden, and overseer, being a great admirer of learning, and well able to write his name, sent me his only son to be schooled at Tiverton, in the county of Devon. For the chief boast of that ancient town (next to its woollen staple) is a worthy grammar-school, the largest in the west of England, founded and handsomely endowed in the year 1604 by Master Peter Blundell, of that same place, clothier. Here, by the time I was twelve years old, I had risen into the upper school, and could make bold with Eutropius and Cæsar—by aid of an English version—and as much as six lines of Ovid. Some even said that I might, before manhood, rise almost to the third form, being of a persevering nature; albeit, by full consent of all (except my mother), thick-headed. But that would have been, as I now perceive, an ambition beyond a farmer's son; for there is but one form above it, and that made of masterful scholars, entitled rightly "monitors".Musaicum Books presents to you this carefully created collection of Plato's complete works. This ebook has been designed and formatted to the highest digital standards and adjusted for readability on all devices. There are also a number of essays relating to various aspects of Plato's works. Plato (428/427 BC – 348/347 BC) was a philosopher in Classical Greece. He was also a mathematician, student of Socrates, writer of philosophical dialogues, and founder of the Academy in Athens, the first institution of higher learning in the Western world. Along with his mentor, Socrates, and his student, Aristotle, Plato helped to lay the foundations of Western philosophy and science. The Sophist is a Platonic dialogue from the philosopher's late period, most likely written in 360 BC. Its main theme is to identify what a sophist is and how a sophist differs from a philosopher and statesman. Copyright code: 362f85c57bd9980c6a058afc613a4dc3
